

Algolah School District

The Algolah School District was established in 1905. The school was located on the Grizzly Peak Road approximately one mile from the junction of Grizzly Peak Road and Highway 89, 18 miles east of McCloud.

Algolah was a lumbering town. The mill and school burned and in 1910 the district was lapsed and annexed to the Pebble School District. No remains of the school house can be found.

No photographs available.
